Education

BTECH in Computer Science.

Aliya University (Kolkata) 2013 – 2017

Computer Science (Honours) – 1st Year

Calcutta University (Kolkata) 2011 – 2012

Class XII

MD JAN HS SCHOOL (Kolkata) 2009 – 2011

About Me

I'm a technology enthusiast with over 5 years of hands-on work experience in the IT industry. My specialization in web development technology allows me to embrace innovative approaches and leading-edge technology solutions. I'm more into Web development as well as Application Development using PHP as server side and Angular as client side. I love working with Linux server. I have the bare minimum knowledge of CSS and Bootstrap.

Professional Experience

ONQANET TECHNOLOGIES | WEB DEVELOPER

2017 – 2021

Key responsibilities:

- Design, develop, and maintain web-based applications using the latest technologies, ensuring efficiency and good user experience.
- Follow industry best practices and coding standards by writing clean and efficient code in PHP and MySQL queries.
- Work with teams of designers, product managers and QA analysts to deliver high-quality products on time and within budget.
- Work with CodeIgniter, WordPress and other CMS frameworks to develop custom content and plugins as per client requirements.
- Analyze project requirements and set timelines for completion, providing accurate estimates to stakeholders.
- Doing R&D to stay updated with the latest technologies in the web development industry to identify opportunities for improvement.
- Provide support and guidance to the junior team members, motivate them, and share best practices and expertise.
- Troubleshoot and implement solutions to ensure optimal performance of web applications and improve user experience and customer satisfaction.

CODECLOUDS IT SOLUTIONS | WEB DEVELOPER
