About Me

I'm a technology enthusiast with over 7+ years of hands-on work experience in the IT industry. My specialization in web development technology allows me to embrace innovative approaches and leading-edge technology solutions. I'm more into Web development as well as Application Development using PHP, WordPress, Laravel and CodeIgniter on the server side and Angular 2+ on the client side. I am team player and have a good experience in handling the team and have a good success rate of working with clients from worldwide.

I love working with Linux/Apache servers. I have a good knowledge of HTML, CSS and Bootstrap.

Professional Experience

ONQANET TECHNOLOGIES | WEB DEVELOPER

2017 - 2021

Key responsibilities:

- Develop and maintain web-based applications using the latest technologies (PHP/WordPress, Angular 8+), ensuring efficiency and good user experience.
- Follow industry best practices and coding standards by writing clean and efficient code in PHP and MySQL queries.
- Work with teams of designers, product managers, and QA analysts to deliver high-quality products on time and within budget.
- Work with CodeIgniter, WordPress, WooCommerce, and JavaScript to develop custom content and plugins as per client requirements.
- Analyze project requirements and set timelines for completion, providing accurate estimates to stakeholders.

CODECLOUDS IT SOLUTIONS | WEB DEVELOPER

2021 - PRESENT

Key responsibilities:

- Understand client problems, requirements, and specifications.
